

Please do not over turn the New Jersey "do not call" law, As someone who only gets to spent important stress free quility time with my family between the hours of 6:00 to 8:00pm daily the law has been the best quility of life improvment i have recived in my 38 years of age. You can not put a price on the positve change it has provided my family. I will list it as the best thing in life after God, Love, Food, Water & Air!
